

# Project Prevent Press

## Benson's First Grade Reading Program

Several things will be coming home daily with your child from Project Prevent. Below is a list of things you will find in the baggie as well as how to use them.

### Cut-Up Sentences

Have your child mix the words up, put them back in the proper order, and read it back to you. It is not necessary to return the cut-up sentence to school.

### The Little Books

The little books should be read to you daily. Your child should point to each word as he/she reads. **Yes, your child has memorized the book. This is the first stage in the reading process.**

Please be sure to return these books to school the very next day.
