

Directions: Shi Huangdi (c.259-210 BC) of the Qin Dynasty unified China and built what would become the Great Wall Of China!

1. Complete the Timeline (see p.157).
2. On the Map of China (see p. 161) Label the Yellow Sea, East China Sea, & South China Sea.
3. Cut out your Great Wall and complete your Graphic Organizer for Ancient China on the Back. Ch. 6 Sec. \_\_\_\_ (p. 160-165, 166-171, 172-176, 178-183, and/or 186-189)
4. Fold your Great Wall twice (so that the Directions & your name will be facing down to form the base, and stick glue the two skeletons on either end. (The Great Wall was actually two walls with rubble filled in between the two walls. Many workmen died while building the wall, and their bodies were reportedly used as "filler" between the walls!)
